

Stylish Domes and Room in Room Structures

for events, congresses and offices

Minimum assembly and disassembly time

Rooms for 1 to 1000+ people

Optimal acoustics & sound insulation

No fan noise

Sustainable and circular

PANORAMA DOME 8

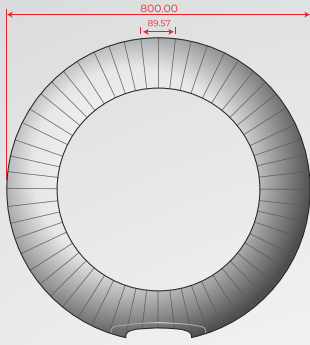

General

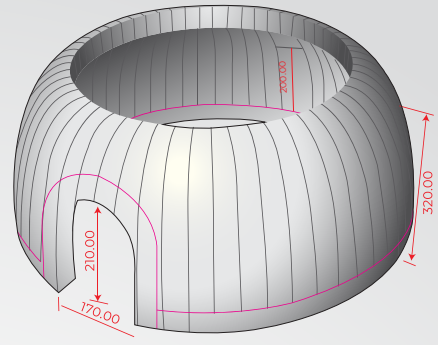

The Panorama Dome is an inflatable workshop dome or room and is a round structure with an open roof. This popular inflatable dome is often used as a subspace or workshop space at trade fairs and conferences. The open roof creates a sense of space inside the dome, while privacy, acoustics and soundproofing are guaranteed. The Panorama Dome can be used, for example, as a workshop space, break-out space at conferences or trade fairs, or as a presentation space.

Product Enhancement

ACOUSTICS AND QUIET AIRFLOW

This Panorama is optimized for acoustic properties, making them ideal for workshops and presentations or acoustic partitions, for example. In addition, this structure is equipped with an isolated blower system that is not audible.

SUSTAINABILITY AND CIRCULARITY

With QuickSpace products, you don't create waste at your event. Our products are cleaned in an environmentally friendly way after use, making them new-worthy at every event. At the end of life, our products are processed into other products such as storage bags, contributing to a circular economy.

BRANDING

On request, this structure can be branded with your own branding, for example by theme colors, projection of logos or texts, or by means of TV screens or banners.

LED LIGHTING

This structure can be illuminated in any color using LED modules, creating a unique ambiance. This can be set both statically and dynamically.

QUICK INSTALLATION AND DISMANTLING

One of the benefits of QuickSpace products is the quick installation and dismantling. Hence, it is possible to install the structures at your convenient times, saving you costs and time. Our experienced teams will take care of the installation, disassembly and, if necessary, design of your event.

FIRE SAFETY CERTIFICATES

All our structures have the most important fire safety certificates such as German B1, France M1 and American NFPA 701
