

Stylish Domes and Room in Room Structures

for events, congresses and offices

Minimum assembly
and disassembly time

Rooms for 1 to 1000+ people

Optimal acoustics
& sound insulation

No fan noise

Sustainable and circular

CUBE 18

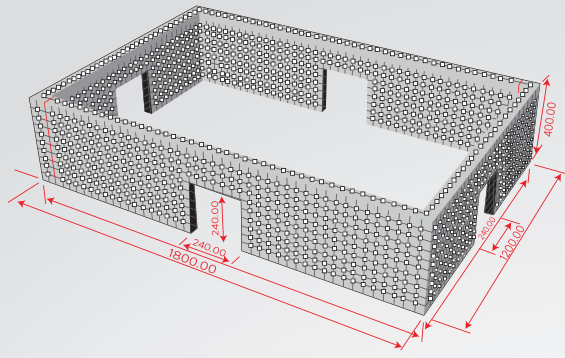

General

The Cube is a square or rectangular inflatable dome tent, ideal as a temporary workshop space or meeting room. The high walls make it an imposing appearance, and also ensure good soundproofing and acoustics.

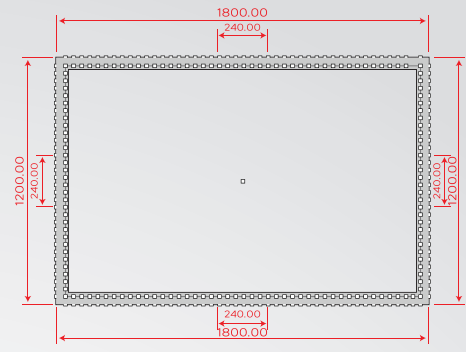

The inflatable Cube 18 has an open top. Because of the open roof the spatial feeling and the ventilation are optimal. Because of the design and the high walls, these Cubes offer optimal soundproofing and acoustics. This also allows several Cubes to be placed next to each other without sound transfer between the groups.

Product Enhancement

ACOUSTICS AND QUIET AIRFLOW

This Cube is optimized for acoustic properties, making them ideal for workshops and presentations or acoustic partitions, for example. In addition, this structure is equipped with an isolated blower system that is not audible.

SUSTAINABILITY AND CIRCULARITY

With QuickSpace products, you don't create waste at your event. Our products are cleaned in an environmentally friendly way after use, making them new-worthy at every event. At the end of life, our products are processed into other products such as storage bags, contributing to a circular economy.

QUICK INSTALLATION AND DISMANTLING

One of the benefits of QuickSpace products is the quick installation and dismantling. Hence, it is possible to install the structures at your convenient times, saving you costs and time. Our experienced teams will take care of the installation, disassembly and, if necessary, design of your event.

LED LIGHTING

This structure can be illuminated in any color using LED modules, creating a unique ambiance. This can be set both statically and dynamically.

BRANDING

On request, this structure can be branded with your own branding, for example by theme colors, projection of logos or texts, or by means of TV screens or banners.

FIRE SAFETY CERTIFICATES

All our structures have the most important fire safety certificates such as German B1, France M1 and American NFPA 701

DOOR SYSTEMS AND TRUSSES

This Cube can be equipped with (glass) doors for optimal privacy and soundproofing. These glass doors are partially non-transparent so there is no direct inside view.

In addition, the Cube is fitted with (non-visible) truss systems for stability and safety.
