INSTRUCTIONS FOR OHIO PETITIONERS

**The petition MUST be printed on 8 1/2 x 14. If you cannot print it on 8 1/2 x 14, please contact us and we will mail you the forms**

1) Everyone who signs must be a registered voter in Ohio.
   (You can carry voter registration cards and register someone who wants to sign, but be sure to turn the cards in ASAP. A delay of 5 days will invalidate the signature.)

2) Ask each person to sign their name and address the same way they did when they registered to vote.

3) You can NOT sign your own petition.

4) Only one county per sheet. If you get someone from a different county use a different sheet.

5) Be sure you witness each signature. You can't just leave it out on a table, and no one else can circulate your petition.

6) One does not have to be Green or vote Green to sign the petition. This petition just gets the candidate on the ballot. Although we hope they do, signing the petition is not a commitment to vote for the candidate.

7) Print your name on the circulator portion of the petition

   DO NOT sign it or fill out the rest until you are finished with the petition. When you are done with the petition count the number of signatures that you have collected and fill in that number in the appropriate space. You can cross off any signatures you know are not valid, or if you mistakenly got one from a different county.
