

Vadim Katkov

I pay great attention to detail and design responsive interfaces that are user-friendly and beneficial to the business. I am proficient in software such as Figma and Adobe Creative Suite. The most experience I have is in the designing of booking and rental properties, e-commerce and medical projects.

EXPERIENCE 8 YEARS

Devhouse • Senior Product Designer

FEB 2021 - PRESENT (2 YEARS 11 MONTHS)

My work tasks include creating user interfaces, animations, wireframes, prototypes, conducting research, interview and testing, and working with product teams to develop and refine product features. Here are some achievements:

- Created a design system
- Created new dashboard
- Successful presentation of new product features to our Google partners
- Improvement of the product to the standards of partners for integration

Katrus • Middle Product Designer

FEB 2019 - JAN 2021 (2 YEARS)

Work on the product, analysis and improvement of the visual part and user experience. Conducting research and testing hypotheses. Setting tasks for the illustrator when working with the visual image of the product. Redesign of the admin panel for product management.

HotTeam • Junior - Middle UI/UX Designer
