

COLOR TREND: WINDOWS

The appeal of dark or colored windows has grown in recent years, as the look can be appropriate for every style - from classic to contemporary. Now the window manufacturers have heeded the call and are providing as many as 50 low-maintenance color choices in their vinyl, aluminum, fiberglass, and wood-clad lines.

In single family and townhomes we have been using bronze, black, and taupe while on our multi-family projects the trends have included red or rust, gray and hunter green as well.
