# HOTEL VICTOR HUGO PARIS KLÉBER

Laurent Maugoust Architecture Intérieure

Hotel Victor Hugo is a four-star Parisian “private property” located in the heart of Paris. Between the Champs-Élysées and the Arc de Triomphe, a strategic location chosen by the hotel stands a beautiful Art Deco Building.

Inside it, an Art Deco environment blends with contemporary style, giving its hosts the right vibes for a comfortable stay. The charming entrance of the hotel invites everyone to meet the modern contemporary design of BRABBU.

The creator of this small gem is Laurent Maugoust, a renown Parisian architect, with his studio - Laurent Maugoust Architecture Intérieure. In 2018, Laurent’s studio was looking for the best furniture products to furnish this hotel at the richest and finest quarter of the French Capital, the 16th Quarter. The studio found the Covet Paris Showroom, a place full of world-class luxury brands, showcasing a wide range of products within mid-century, modern, contemporary, and classic styles.

Inside the showroom, a brand stood out for the studio: BRABBU, with timeless design products inspired by nature, the cosmopolitan lifestyle, and culture. The studio couldn’t think of better options to create an exclusive reception decor, after finding the MAYA armchair. The two MAYA armchairs chosen to give a comfortable and inviting environment for this reception decor, are made of an intense golden colour enhanced by the velvet texture. The sensual and delicate forms of this accent chair, are inspired by Mayans Maize Goddess, making it the perfect seating solution. Also chosen was the KOI side table, a small table inspired by

the Koi carp scales. This table gives exoticism and peacefulness to the hotel art deco interior. with a base in brushed-aged brass and a top in marble, this round side table adds a refined and elegant touch.

The entrance of the Hotel Victor Hugo is composed of a black art deco-inspired screen in a floral pattern, that fits very well with the contemporary design and colour of the two yellow MAYA velvet armchairs. The final touch through the modern design of the KOI side table. This project is definitely a wonderful design inspiration.

# PARIS

Paris, the City of Lights is also de city of design! The French Capital is also known worldwide as the Design Capital of Europe, a title that fits it perfectly due to the incredible amount of creativity and design passion that flows through the Parisian streets, neighborhoods, and landmarks! Home to some of the most spectacular, exquisite, prolific and passionate designers and architects of the planet, this amazing city is also home to some of the most illustrious institutions and tradeshow of the world of design. We can name, for instance, the worldwide popular Maison&Objet tradeshow or the iconic Paris College of Art, not to mention the iconic museums of the city, like the Louvre or the Musée d'Orsay. These and many more institutions personalities and events have been inspiring the worldwide designers for decades. We can say that the beautiful city of Paris is much more than just a creative hub for design, it's also a design lifestyle and inspiration all on its own.
