Film Synopsis

50 of the most talented artists working in the artificial intelligence space have come together to create a groundbreaking feature-length parody remake of Terminator 2.

"Our T2 Remake" marks a new era in cinema where entire movies can now be generated with the help of machines. The film puts a spin on the beloved classic with commentary and satire about modern-day A.I. technology and its effect on humanity.

The film will premiere in Hollywood for one night only on **March 6th**.

AIInfinite.TV & Zero1Cine.com will host the online stream where audiences can chat & watch along with the entire cast and crew on **March 9th**.

Production Notes

"Our T2 Remake" started production on September 2023, and was led by Nem Perez and Sway Molina, who assembled a team of 50 artists. **The overall budget for the film was \$0.** The film's innovative structure divides it into 50 segments, each reimaged by a different artist using various AI tools and styles. Organized entirely through Discord & Zoom by a global group of artists, this collaborative project enabled artists to offer feedback and contribute ideas, resulting in a unique mixed-media experience. Every 2-3 minutes, the film transitions to a new interpretation, maintaining a cohesive storyline.

Artists utilized tools like Midjourney, Runway, Pika Labs, Kaiber, and Adobe, while ensuring all content was original, without using any footage, dialogue, or music from the original film.

The project concluded its principal photography on December 31st, 2023, and locked the picture on February 2024.

Producer's Statement

This film was inspired by and dedicated to the AI community and celebrates this innovative space. "Our T2 Remake" re-envisioning a classic narrative often cited negatively in AI discourse, challenging the 'Doomsday' perspective. We aim to shift the focus, illustrating AI's positive contributions and redefining its role in averting a global catastrophe.

"I hope people watch this film with a sense of optimism and joy. Instead of shining the light on the doomsday scenario the original film showcased. We want to flip the script and show the world how AI can empower every filmmaker across

the world to create their own stories on an epic proportion." - Nem Perez |
Executive Producer

"What do you get when you bring together close to 50 Generative AI artists from around the world and place them in one chat room to create something cool using the tools available in the fourth quarter of 2023? Our T2 Remake. It's weird, funny, and it's going to make every Hollywood producer and director want to do it themselves in response to we all accomplished out of pure passion for AI and Storytelling." - Sway Molina | Executive Producer

Artists Statement

We are committed to empowering artists and redefining filmmaking norms. "Our T2 Remake" is a testament to our dedication, showcasing the pinnacle of our artistic capabilities. This film, a brainchild of the AI community, demonstrates the use of artificial intelligence as a transformative tool, a creative medium, and a means of artistic expression.

Cast and Crew

Nem Perez, a renowned commercial film director with notable works for Disney and acclaimed music videos for artists like Mac Miller and Chance the Rapper, spearheads the project. He also founded Storyblocker, an iOS app aiding filmmakers in storyboard creation through AI. His company Storyblocker Studios, which produced "Our T2 Remake", is leading the way for future AI feature films.

Sway Molina, an actor and musician from Miami, is a prominent figure in the AI art world. His mini-series "Streetopia" received critical acclaim in 2023. Sway's early involvement in the AI artist community laid the groundwork for "Our T2 Remake".

Richard A Zuniga Jr a renowned Arnold Schwarzenegger voice impersonator with over 88k followers on Instagram voiced the Terminator for this film.
