## Work Experience

### TOOLBX · UX/UI Design Intern

May - Aug 2021 · Series A e-commerce platform for building  
supply dealers.

- Collaborated on a dozen projects with PMs and internal stakeholders to improve and create features.
- Built the design system components and documentation, consolidating visual design used across three products.

### Think Dirty · Junior UX/UI Designer

May 2021 · Education platform that helps consumers find toxic ingredients in household, personal, and beauty products.

- Designed new features and improved existing UX/UI design.
- Researched and analyzed over a dozen social and e-commerce applications to aid in product development.
- Coached the design and engineering teams on accessibility in digital design.
- Created illustrations and icons throughout the application.

### Blockchain Markets · Product Design Intern

May - Oct 2018 · Crypto-exchange platform acquired by BitBuy in 2018.

- Developed, created and prototyped high fidelity mobile mockups in Sketch.
- Conducted and documented user testing of product features.
- Expanded branding through user interface designs, illustrations and iconography.

### Freelance Designer

2019 - Present · Designed websites, apps, branding and more.

- 2021 Deronde Studios — Created over a hundred door decals to aid senior homes for residents with memory impairment.
- 2021 Axis DeFI — Led the UI/UX for GoNFT, an NFT e-marketplace platform using cryptocurrency.
