This recycled rubber flooring is taking the industry by storm. This hard-wearing rubber floorcovering is designed to handle bustling retail and leisure installation with ease.

Product Information

Sportec is produced from 85% recycled car tyres and is a compact 4mm thick product. This soundproof, non-slip and easily-cleanable floorcovering is comfortable underfoot and offers excellent insulation.

Sportec is available in 6 colourways featuring funky chips of bright red, blue, green, yellow or grey or a mix of blue and grey.
