Security Enclosure Secure Cover

The Security Enclosure provides a lockable cover for existing onsite services. The lockable security door covers all electrical and medical gas devices. The enclosure has a full length hinge for maximum durability and a minimum of two locks to keep the services secure.

Features/Specifications:

- Full length hinge
- 180° opening for clear access to services
- Beveled edges for ligature resistance
- 2" protrusion from the wall

Options:

- Build to order in any configuration or size
- Provisions or open enclosure
- Available Vacuum Bottle Slide
- Stainless or powder coated steel finish
- 2 or more locks
