## Flush Axiom™

### Flush Vertical Patient Care Headwall

The Flush Axiom™ Headwall provides all of the patient services in one compact flush mounted location leaving maximum floor area for patient care. The Flush Axiom is constructed of heavy-duty aluminum extrusions that are deep etched and clear anodized. All services are connected at the top of the unit to preserve the integrity of the wall studs.

Units may be used as a pair to provide services to each side of the patient.

### Features/Specifications:
