HOW TO ORDER WITH YOUR REUSABLE BOWL

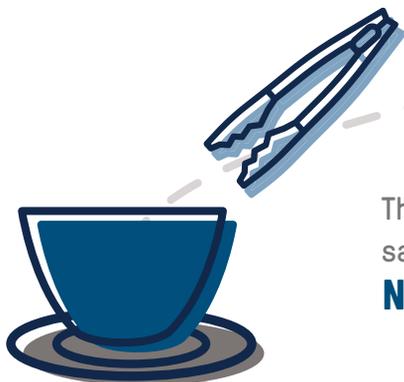

a guide to how we're
keeping you safe

#touchlessordering

SHOW YOUR REUSABLE BOWL to the teammate at the start of the line. No need to hand it over—just tell them what you're ordering!

After your salad is prepared, the teammate will place a **SANITIZED PLATE** on the glass counter in front of you. Place your Reusable Bowl on the plate. Keep the lid with you—our team will never touch it!

The teammate will grab your Reusable Bowl with sanitized tongs, while holding the sanitized plate. **NO HAND CONTACT** is made with your bowl.

Using this “contactless grip,” the teammate will place the plate with your Reusable Bowl on the dressing station and **PORTION YOUR SALAD** into your Reusable Bowl using the sanitized tongs.

With the Reusable Bowl still on the plate, the teammate will use the tongs to place it back on the counter. You can then **PLACE YOUR LID ON THE BOWL** and proceed to checkout!

The teammate will place the black plate, mixing bowl, and tongs in a bin specially designated for **SANITATION AND WASHING**.
