** Date de disponibilité générale : Dans le cadre de la politique de support Microsoft, la date de disponibilité générale est la date à laquelle un produit est généralement disponible au public dans la majorité des différents marchés dans le monde.

See End Support : Le support s'achève 12 mois après la sortie du service pack suivant, ou à la fin du cycle de support du produit, la première date prévalant. Pour plus d'informations, veuillez consulter la section de la politique de support applicable aux Service Packs. <http://support.microsoft.com/gplifecycle/#sp>

Liste des patches intermédiaires : <http://sqlserverbuilds.blogspot.com/>

Cumulative Updates : Depuis le 27/01/2016 Microsoft recommande l'installation proactive des CUs dès qu'ils sont disponibles. Les SQL Server CUs sont testés et certifiés au même titre que les Service Packs, et peuvent donc être installés avec le même niveau de confiance.
