The Ford Escort Mk1 RS's stripped-back approach is as significant as its tech-heavy features. No frills like power steering or ABS will be found under the hood of this performance-oriented vehicle. Instead, drivers can choose between two engines - a standard Twin Cam option and the Bespoke engine from Boreham Motorworks. The former churns out 182bhp, while the latter packs a punch with its 296bhp.The 2025 Ford Escort Redesign offers an environmentally conscious choice that balances efficiency without compromising performance. It prioritizes safety with advanced driver-assistance systems and high-strength materials for maximum occupant protection. Designed with the consumer in mind, it provides a comfortable and feature-rich driving experience.Its sleek design turns heads while advanced technology keeps drivers connected and informed. The powerful yet fuel-efficient engine delivers an exhilarating experience, accompanied by safety features that provide peace of mind. This redesign represents Ford's commitment to consumer satisfaction, meeting evolving driver needs.Innovative technology is seamlessly integrated into the 2025 Ford Escort Redesign to provide a safer and more controlled driving experience. The advanced infotainment system features a user-friendly interface, voice control capabilities, and reduced driver distraction for improved safety. Driver-assistance features work together to mitigate potential hazards, ensuring an extra layer of protection for occupants and other road users.The performance-driven nature of the 2025 Ford Escort Redesign is reflected in its turbocharged engine and advanced hybrid system. The turbocharger boosts power output by forcing more air into the cylinders, resulting in increased horsepower and torque. This combination provides responsive acceleration and effortless overtaking capabilities.The optimized powertrain calibrates the turbocharged engine and hybrid system to work seamlessly together, ensuring a smooth and linear power delivery. The car's suspension and chassis are tuned for agile handling and responsive steering, making it enjoyable to drive on winding roads.In addition to its performance capabilities, the 2025 Ford Escort Redesign prioritizes eco-friendliness through its advanced hybrid system. This system combines a turbocharged engine with an electric motor and battery pack, achieving impressive fuel efficiency without sacrificing performance. The hybrid system operates by capturing energy that would otherwise be lost during deceleration and storing it in the battery pack.Overall, the 2025 Ford Escort Redesign's commitment to innovation, driver satisfaction, and eco-friendliness sets it apart from competitors, offering a thrilling driving experience while minimizing its environmental impact.The Escort Redesign offers significant fuel savings without compromising performance, making it an eco-friendly choice for consumers. This is achieved through its electric motor, which assists the turbocharged engine during acceleration or provides power at low speeds. As a result, the vehicle reduces greenhouse gas emissions and lowers operating costs. The 2025 Ford Escort Redesign prioritizes safety with advanced driver-assistance systems and high-strength materials, providing maximum occupant protection in the event of a collision. These systems include lane departure warnings, automatic emergency braking, and adaptive cruise control. The vehicle's construction also features high-strength materials that form a rigid safety cage around the passenger compartment. With its consumer-centric approach, the Escort Redesign offers a comfortable and feature-rich driving experience, tailored to meet the evolving needs of drivers.The redesigned 2025 Ford Escort prioritizes driver comfort with carefully designed elements. The spacious interior offers ample space for all passengers, ensuring a comfortable ride on long trips. Ergonomic seats reduce fatigue and provide optimal support, making driving more enjoyable. Additionally, the vehicle's feature-rich design incorporates advanced technologies and amenities, such as user-friendly infotainment systems that seamlessly connect to smartphones. This integration allows drivers to access navigation, music, and communication apps with ease, minimizing distractions and promoting safety and convenience. The Escort Redesign also includes comfort features like automatic climate control, heated seats, and a premium sound system, creating a luxurious driving environment.The vehicle's focus on driver needs underscores Ford's commitment to delivering cars that cater to modern drivers' expectations. By offering a comfortable and feature-rich experience, the 2025 Ford Escort sets a new standard in the automotive industry.What are the key features and benefits of the 2025 Ford Escort Redesign?The 2025 Ford Escort Redesign boasts sporty handling and responsive powertrain capabilities. By engaging Sport mode, drivers can enhance throttle response and steering precision. Additionally, the paddle shifters allow for a more engaging driving experience, enabling optimal gear selection for performance or fuel efficiency. To further personalize your driving environment, adjust the comfortable seats and customize the ambient lighting to create a desired atmosphere within the cabin.The Ford Escort Mk1 RS is available in two petrol engine options, with the first being a modified Twin-Cam four-cylinder unit producing 182bhp, paired with a four-speed manual gearbox. The second option is a bespoke motorsport-derived 2.1-litre four-pot producing 296bhp and featuring advanced components such as a billet crankshaft and titanium exhaust system. The car features a five-speed dogleg manual gearbox and an all-new lightweight rear axle with coil-over dampers.The suspension system includes MacPherson front struts and an aluminium and titanium fully floating rear axle, while the ATB limited-slip differential provides improved traction. The braking system consists of four-piston brake calipers up front and two-piston calipers at the rear, wrapped in bespoke 15-inch wheels.The car's bodywork has been accurately recreated using laser-scanned blueprints, with enhanced structural bracing and improved torsional rigidity. The interior features a blend of Alcantara, leather, and anodised components, including a deep-dish three-spoke steering wheel and analogue dials.Boreham Motorworks promises OEM-quality finish and quality, with a price tag of 295,000 and a two-year/20,000-mile warranty. Production is slated to begin shortly after the car's release next summer, which will also allow potential customers to see the car in person.Is a new Citroen 2CV on the horizon, sparking debate among fans with some saying yes and others no? This potential revival raises questions about whether it would be a successful French innovation or a costly mistake. Meanwhile, our Deal of the Day for June 9 features an attractive offer. Alternatively, consider a fully-loaded Jeep Avenger available for less than 200 per month, as highlighted in our previous Deal of the Day on June 8.
