

EVERY GOOD CITIZEN SHOULD

BUY BUILD BELIEVE IN BRIGHTON

Brighton Area Historical Society

BUY in Brighton, because your home town merchants and professional people offer you good merchandise and conscientious service at honest prices. Be loyal to the business interests here, because they are largely responsible for the comforts, advantages and opportunities available to you and yours.

It is far better to patronize your fellow citizens who are co-operating to advance the moral, physical and commercial welfare of your town.

BUILD in Brighton because it offers you the utmost in making a real home and surroundings which you and your family can enjoy. A home owner of the community is held in greater esteem by his fellow citizens and every home adds to the town's attractiveness and substantiality.

No man "liveth alone" and your greatest opportunity for the pursuit of Life and Happiness are right here in Brighton—among your friends and neighbors who have learned to like and respect you.

BELIEVE in Brighton, for the combined Faith of every person in our town is the most solid foundation for the accomplishment of every civic dream or plan to which this community looks forward.

Back up your Faith with true co-operation in any movement that better the town and its citizens. And, with everybody working hand in hand, the words "a wonderful place" will be the enthusiastic comment whenever Brighton's name is mentioned.

We, the undersigned, believers in Brighton, heartily endorse the above:
