## **Trixie motel: drag me home episode guide**

Trixie Mattel, a famous drag queen, along with her partner David Silver, will be taking on homeownership in Los Angeles by purchasing their dream home. However, the house needs some serious renovation to make it fit for a queen like Trixie. Trixie enlists the help of Real Estate starlet Christine Quinn to find them their first home together, but they soon realize that it requires a major renovation. With the guidance of the Scott Brothers, they aim to turn this house into a stunning mansion. Trixie and David decide to put their new house in drag by starting with the upstairs bedrooms. They seek inspiration from Orville Peck and Nicole Byer, while David prepares the motel for their anniversary party with help from Juno Birch. As the deadline for Trixie's birthday party approaches, the gang rushes to complete the renovations. Trixie and David make a bold decision to demolish the home's original fireplace against Lisa Vanderpump's advice, which puts their renovation timeline and budget at risk. They have only two weeks left until their party, and it seems like they're running out of time. Trixie Motel: Drag Me Home Season 1 has four episodes, with new episodes released every Saturday. The show follows drag superstar Trixie Mattel and her partner David Silver as they search for and renovate their first home in Hollywood. With the help of celebrity friends and designers, they transform their space into a unique sanctuary.
