## Tap shoe size guide

Bloch has been leading in dance shoe innovation for nearly a century. Their products are used by professionals across the globe. Bloch offers high-quality dance shoes that cater to students, teachers, and masters alike, with customizable designs for various age groups and proficiency levels. The company's tap shoes feature Kashmir lining and AAA-grade leather, making them popular among tap dancers. A comprehensive guide on tap shoes is provided here, covering their composition, materials, and features, for dancers. Split sole tap shoes got metal plates under the feet. They're like split sole jazz shoes but with taps on them. These shoes bend good cause there's no solid bottom, just a gap under the arch of the foot. Some tap shoes have elastic straps that let you slip 'em on and off without having to tie laces. That way, you can get ready for dance fast. Other tap shoes got laces like regular shoes. They're great for dancers who want to be able to adjust the fit themselves. Buckle-fasten tap shoes are popular with some dancers. They make it easier to move around on your toes in high heels. But they also help the dancer get a better grip on the floor. How Do I Know What Size Tap Shoe to Get? You should get tap shoes that fit snugly, like ballet or jazz shoes do. That way, you'll get good support and the sound will be clear when you dance. If your tap shoes feel too tight at first, don't worry! They just need a little break-in time. But if they hurt your feet or make your toes bend, that's a sign that they're too small. Tap shoes should feel comfy but firm on your feet. What Can I Do to Make My Tap Shoes Not Slippery? New tap shoes can be slippery, especially when you first get 'em. You gotta break them in so the metal plates get grippy again. Just wear 'em around or practice some safe moves and they'll start feeling better soon. Check the metal taps under your shoes too. If they're worn out, it might be time for new ones! Also, make sure the screws that hold the taps on are tight. That way, you won't slip up on the dance floor. Tap shoes can feel slippery, especially on dirty or wet floors. To improve traction, apply Bloch non-slip rosin spray to the soles of your shoes. This product works with various dance shoes and increases grip between the shoe and floor. If you're still experiencing issues, consult an expert, such as a dance instructor or Bloch staff member, to avoid injuries. For additional advice and tips, visit a Bloch store for a professional fitting or adjustment. To clean your tap shoes, gently wipe leather shoes with a soft cloth and a renovating polish or standard cleaner. For patent shoes, use a wet wipe or damp cloth. Canvas or fabric shoes can be spot cleaned with a mild detergent on a damp cloth. If the tap on your shoe becomes loose, simply tighten it by twisting the screw. Bloch offers high-quality tap shoes for all dancers, including men, women, and children. Our products feature premium materials, hand-made construction, and a wide range of styles, materials, and colors to suit every dancer's needs. Whether you're a beginner or a seasoned performer, Bloch has the perfect pair of tap shoes for your dance journey. Capezio is designed for dancers of all ages, shapes, and sizes. Their products come in various sizes to cater to different body types, including children and adults. To ensure a proper fit, Capezio provides detailed measurements for chest, waist, hips, and girth (the distance from shoulder to ankle). For men, the brand recommends sizing up two shoe sizes compared to street shoes. Tap shoes should feel snug around the feet, as this helps with shock absorption, precision control, and optimal sound quality. Capezio offers a size chart for their tap shoes, which is divided into different categories based on foot length (in centimeters) and shoe style (Tele Tone Tap or Due Tone). The charts provide detailed information on sizing for both children and adults. \*\*Capezio Tap Shoe Size Chart\*\* When choosing Capezio tap shoes, it's essential to know your correct size to ensure a perfect fit and optimal performance. According to Capezio, their tap shoes run smaller than regular street shoes, so you'll need to size up. \*\*General Guidelines\*\* \* Women: Choose 0.5 sizes larger than your regular shoe size \* Men: Choose 2-2.5 sizes larger than your regular shoe size \* Girls: Choose the same size as your school shoes or 0.5 size larger \* Boys: Choose 0.5 to 1 size larger than your normal shoe size \*\*Special Cases\*\* \* For style 443C, girls should choose shoes that are 0.5 size smaller, while boys should wear their regular size. \*\*Key Features of a Perfect Fit\*\* \* The shoes should feel snug around the feet \* The toes should be flat and nearly reach the end of the shoe \* The shoes will mold to your foot's shape with wear \*\*Understanding the Size Chart\*\* The size chart provided is based on foot length in centimeters, but it also takes into account shoe styles. For example, the Tele Tone Tap and Due Tone styles have different sizing requirements. \*\*Tips for Choosing the Right Size\*\* \* Don't choose a loose-fitting shoe, as this can affect performance \* Consider trying on shoes to ensure a comfortable fit Overall, understanding the Capezio tap shoe size chart will help you choose the right size and style of shoe for optimal performance. When choosing Capezio tap shoes, it's essential to consider your shoe size and foot length. Women should choose a size that is 0.5-1 size smaller than their regular shoe size, while men should choose a size that is 2-2.5 sizes bigger. Girls and boys should choose shoes that fit their normal size or 0.5-1 size bigger. The best way to determine the right size is by trying on the shoe and ensuring it feels snug but not too tight. Capezio tap shoes will gradually mold to your foot's shape with wear, providing support and stability for your feet and ankles. To choose the perfect fit, refer to the provided sizing chart. For adults, use the "Ladies Street Shoe" column, while for kids, use the "Girl School Shoe" column. Additionally, consider the shoe style, such as Tele Tone Tap or Due Tone, which may have slightly different sizing requirements. By following these guidelines and using the Capezio tap shoes size chart, you can ensure a perfect fit and enjoy a great performance on stage. Remember to try on the shoe before buying and adjust it if necessary to achieve a snug but comfortable fit. Capezio Tap Shoes Size Guide When choosing Capezio tap shoes, it's essential to select the right size to ensure a snug fit and optimal performance. For women, add 0.5 sizes to your regular shoe size. For men, go up 2-2.5 sizes. Girls can choose their normal size or 0.5 sizes larger. Boys should opt for 0.5-1 sizes bigger than their regular size. Key considerations: - The shoes should feel snug, with toes flat and near the end of the shoe. - A snug fit provides support for your foot and ankle. - Product sizing is a guide, and actual fit may vary; contact us if you have concerns before ordering.
