The pumpkin spice cafe

The Pumpkin Spice Café by Laurie Gilmore is a heartwarming cozy romantic novel that won the TikTok Shop Book of the Year 2024 and became a Sunday Times and USA Today bestseller. The book follows Jeanie, a city girl who inherits the beloved café in the small town of Dream Harbor from her aunt, as she seeks a fresh start away from her mundane desk job. Logan, a local farmer with a gruff demeanor, is initially resistant to Jeanie's presence but finds himself inexplicably drawn to her sunny attitude. As Jeanie settles into her new life in Dream Harbor, she and Logan engage in a delightful dance of attraction and repulsion. With its perfect blend of fall vibes, coffee shop charm, and grumpy x sunshine tropes, the book has captured the hearts of readers worldwide. Reviewers praise the story for its warmth, humor, and relatable characters, making it an ideal read for fans of small-town romances and autumnal settings. The Pumpkin Spice Café is a standalone novel within the Dream Harbor series, allowing readers to jump into the world without prior knowledge. With its guaranteed happy ending (HEA) and delightful narrative, this book is sure to leave readers feeling cozy and satisfied. I absolutely adored this book, with its perfect blend of romance, mystery, and small-town charm. The fall setting and coffee shop vibes were immaculate, making me feel all cozy and warm inside. The cast of characters around Jeanie and Logan was amazing, and the story was so heartwarming, it made my heart skip a beat. I loved how the book captured the perfect balance of sweetness and spice, just like Laurie Gilmore's writing style. It's no wonder this book became a TikTok phenomenon! With its grumpy x sunshine dynamic, found family elements, and plenty of romance, this book is a must-read for fans of Gilmore Girls and small-town romances. I couldn't put it down, and I'm so glad I did – it made my heart happy, and that's all that matters. Looking forward to seeing everyone at the meeting tomorrow and discussing our strategies Unfortunately, this book was an underwhelming experience. The third act break was particularly frustrating and made me question the author's decision-making. Not every romance novel needs a breakup in the third act, and I wish authors would consider alternative approaches. Despite my criticisms, the book was still enjoyable to read. The autumnal setting and small-town atmosphere were charming, but the love interest left much to be desired. The miscommunication issues and insta-love made me roll my eyes, especially during the epilogue. One thing that did strike a chord with me was the author's use of cosy autumnal vibes. It was like they had watched too many Hallmark movies and Gilmore Girls, but I appreciate the effort to create a warm and welcoming atmosphere. I also appreciated the themes of enjoying the simple pleasures in life and finding comfort in familiar routines. The book made me think about the importance of noticing and appreciating the little things, like a warm cup of coffee or a good book. Overall, this book was a pleasant surprise, despite some missteps. It had all the ingredients for a great romance: fall vibes, grumpy/sunshine tropes, and a touch of mystery. While it may not have been perfect, it was a delightful escape into a world that felt cozy and inviting. Cozy world meets pumpkin spice in this October tale. With an emphasis on the SPICE, Logan seems like a hot farmer from Gilmore Girls in book form! It's all about fall vibes, cute banter, and a good amount of spice. I loved it and can't wait for the next one! This book was worse than a Hallmark movie (and I love Hallmark movies). I know I'm reading cheesy, cliché fall books, but this one was almost unbearable. The writing and dialogue made me want to cringe the whole time. Just a silly, cutesy, cozy time! ☕️ It's not revolutionary, but autumnal? Infinitely! September 21, 2023 I thought this book would be a grumpy-sunshine romance, but it's more like an introvert. The characters and plot don't deliver. This novel features insta-love, which I'm not a fan of. What's a romance without some good tension? The only tension stems from the "great conflict" (will the reformed city girl turn her back on the small town life after all????) seemed super stupid and was hilariously easy to overcome. They could've cut down on chapters and words, and nothing would have changed. Overly done? More like perfectly capturing the essence of autumn! The narrator did a great job, and I'm excited to dive back into this series. This cozy mystery is a delightful, quirky tale set in a small town that's perfect for the season. It has a similar vibe to Gilmore Girls, with lovable characters, witty banter, and a touch of romance. The main character, Jeanie, is a neurotic but lovable woman who's trying to leave her stressful past behind and start fresh in this charming small town. Logan, the sexy farmer, is a bit of a cinnamon roll with a troubled past. The town is full of quirky characters, and the story has a strong sense of community. I went into this book expecting something lighthearted and fun, and it delivered. It's not my usual type of read, but I was craving something easy to get through, and this fit the bill. If you're looking for a feel-good book with endearing characters, this is definitely worth checking out. Some people might say that the aesthetic is more appealing than the actual story, but let's see if it lives up to the hype! For me, it was just okay – I found the insta-love and lack of surprises to be a bit bland. However, the setting and characters are so charming that it's hard not to get caught up in them. Tropes: grumpy x sunshine, small town / cozy romance, found family, mild spice This fall-themed romance, The Pumpkin Spice Café, did not disappoint me. I'm completely captivated by the town and its characters, making it an ideal choice for a quick story with a cozy autumn setting. Although this book wasn't groundbreaking, its charm won me over, and I'll definitely be reading the rest of the series. The story follows Jeanie as she moves to Dream Harbor to take over her aunt's café, where she meets Logan, a local farmer who becomes her love interest. The romance is sweet, with a touch of spice, reminiscent of a Hallmark movie. I'm looking forward to reading the next books in this series. One thing that didn't work for me was the repetitive fight between Jeanie and Logan, which felt unnecessary given their communication issues. Additionally, Logan's character development raised some questions – why would he propose to his ex-girlfriend in front of the entire town if he hated attention? Despite these minor flaws, I enjoyed this cozy read, especially the autumn vibes and Gilmore Girls-esque atmosphere. The dual POV added depth to the story, but the third-act breakup felt forced and unnecessary. I appreciate Jeanie's determination and confidence as she takes on her aunt's café, and her detective side is hilarious. However, I didn't connect with Logan; his inner thoughts about Jeanie often annoyed me, particularly when he wouldn't communicate with her about their issues. Overall, this book had its flaws but won me over with its autumn charm and romance. I went into this book with low expectations, but was disappointed :(The story had a Gilmore Girls vibe that I desperately needed, but it didn't quite live up to my neutral expectations due to other reviews and opinions not being entirely positive.I did enjoy some parts of the story, like Jeanie's relationship with Logan, but there were moments where it could have been developed better.One thing I loved was the autumnal setting and the small town "Dream Harbor", which had a beautiful aesthetic.I also appreciated how relatable it felt, like something from a Pinterest board.I'm still trying to figure out why I didn't love it more, because the mystery aspect of the book seemed pretty clear who the culprit was.
