IKEA Assembly Service - Assemble it Yourself or Get TaskRabbit Help Our products are designed to be assembled by you, saving you money. However, we've partnered with TaskRabbit to connect you with independent 'Taskers' who can provide assembly services for IKEA purchases made online and in stores as soon as the same day. Assemble Your Bed Frame: A Step-by-Step Guide to a Clean Workspace 1. Prepare Workspace Ensure your workspace is clear of clutter, allowing you to lay out all components comfortably. Verify the included parts and hardware with your IKEA manual. 2. Assemble Frame Components Follow detailed instructions for assembling headboard, footboard, side rails, SKORVA midbeam and storage drawers. 3. Install SKORVA Midbeam Locate brackets on side rails, slide in the beam, and secure it using screws or clips. 4. Attach Slatted Bed Base Lay LURÖY or LÖNSET slats over the SKORVA beam, fastening them according to the manual's instructions. 5. Finalize Assembly Verify all components are secure, attaching any additional features as specified in your bed frame model. Here are some assembly tips: Get all your screws and parts in order beforehand to avoid mix-ups. For larger frames like King-size, enlist a helper to ensure safety during the process. Use a soft mallet to tap parts into place without damaging the wood or veneer. Don't overtighten screws, as this can damage the wood or strip the threading. Make sure the midbeam is securely attached to prevent structural instability. Keep small parts and tools out of children's reach while assembling.
