In response, Sirin unleashed a massive swarm of Honkai Beasts across Siberia. Later that year, Bronya Zaychik was born. Murata Himeko graduated from high school and went on to enroll in the Department of Astrodynamics at the California Institute of Technology. In 2004, Mei faced a traumatic experience after being abducted by a terrorist organization and underwent three years of mental treatment. The following year, the fourth Divine Key was discovered orbiting Earth. Murata Himeko earned her Ph.D. from the California Institute of Technology and became an artificial Valkyrie with stigmata. In 2007, Rita encountered Ragna Lothbrok in Manchester, while K-423 and Siegfried saved a village from Honkai earlier that year. Bianka awakened at a sanatorium and subsequently became a Valkyrie under Ragna's recommendation. The United Nations proposed the Galactic Stairway project. In 2010, Ragna visited Bianka's orphanage, and K-423's Herrscher persona activated. Ragna died soon after, but Bianka took the Schicksal Valkyrie Admission test and started her career as a Valkyrie. The Galactic Stairway project was launched officially. By 2011, Ana Schariac became a Valkyrie, and Bianka surpassed her age to become the youngest A-Rank Valkyrie. During the summer of that year, Uncle Maxim's gang disbanding occurred after he died in an accident. In winter, Bronya assassinated Cocolia on a mission. In 2012, Otto ordered Rita to take care of Bianka. The following year, Bianka met Rita for the first time before their big mission. The Emperor Honkai Beast Ganesha made his debut in India. On February 29, 2012, the Lonely Panthalassa mission began at the Sea of Quanta. By 2013, Schicksal's New Zealand branch implanted a Gem of Desire in Wendy, and Kiana Kaslana enrolled at Chiba Academy. However, an X-10 experiment went wrong, causing Seele to be lost in the Sea of Quanta. In November 2013, Raiden Ryoma was arrested for economic crimes. In December 2013, Kiana killed Asakura Miyuki in self-defense. By February 2014, a third eruption occurred in Nagazora, and three days later, Kiana, Mei, and Bronya enrolled at St. Freya. The first Valkyrie exams took place, with Mei ranking second and Kiana failing. Theresa fought a pseudo-Herrscher but was poisoned; Yae Sakura sacrificed her life to save Theresa. Her 10th birthday was in 2010, making her 11 years older by this point. The 3rd Eruption occurred in February 2014. Two years and five months later, it's either July or August 2016. There are records of Honkai-infected animals in Southern Asia as far back as 2717 BCE. One mysterious girl, Ji XuanYuan, also known as the Yellow Emperor, appeared in the face of human extinction. Page 8 mentions that this girl was known to target and defeat Judgment-class Honkai Beast Chiyou with local clan heroes. Kallen Kaslana was born in 1453 as the eldest daughter of Francis Kaslana, the 29th head of the Kaslana dynasty. At the age of 16, she passed her trials and became the captain of the Valkyries, Schicksal's anti-Honkai military force. This marked a significant milestone in her life, solidifying her position as a skilled warrior. Ten years later, in 1466, Kallen was still grappling with the loss of her father. Her thoughts revolved around unlocking the secrets of his demise and finding ways to revive him. The seeds of this turmoil were sown, foreshadowing the challenges she would face. Meanwhile, the Honkai plague spread rapidly throughout Europe, claiming 25 million lives in just six years. This catastrophic event left an indelible mark on Kallen's psyche, emphasizing the urgency and magnitude of her mission to combat the forces of darkness. In 1475, as the Schicksal army retreated from the Kipchak Steppes in Central Asia, Kallen came across a young orphan struggling to survive. This chance encounter would have far-reaching consequences, prompting her to take on a maternal role and name the girl Vera. As time passed, Kallen's thoughts often turned to her father and his passing. Her actions were driven by a mix of guilt and sympathy, influencing her decisions and shaping her character. Years later, in 1543, Vera would meet an uneventful end in her sleep, serving as a poignant reminder of the passage of time and the inevitability of mortality. Throughout this period, Kallen's life was marked by significant events and personal struggles. She walked alongside Otto Apocalypse and faced the Honkai plague head-on, forging an unwavering resolve to combat the forces that threatened her world. As she navigated these turbulent waters, Reanna Brigantia would become a beacon of hope, offering words of encouragement and fostering a sense of purpose within Kallen. From Schicksal, a global powerhouse rivaling its own name, emerged quickly. Game Ch 25 notes this shift in power dynamics. The Soviet spacecraft Luna 3's photograph of the far side of the moon on October 7, 1959, marked a pivotal moment for humanity. However, it was Schicksal's Overseeer Otto who classified these images as highly confidential. Numerous failures plagued the efforts to reach the moon until Apollo 11 successfully landed two astronauts on July 20, 1969. Just one month later, Otto sent three Schicksal agents to the moon. Both sides explored and discovered Honkai, a phenomenon previously believed to exist only on Earth. Cecilia: Kiana... Stop calling me mom, I'm 24. Oh, alright! Raiden Mei's backstory reveals her abduction by a terrorist organization at age 10 and subsequent mental trauma treatment under ME Corp. In contrast, Owl, whose real name is Tianwu Chen, survived the 2015 Manila Honkai Event but was left with a corrupted body. Kiana Kaslana's involvement in the disappearance of students at Chiba Academy on December 7, 2013, sparked investigations. Found with a dead student, Asakura Miyuki, Kiana was later cleared of charges due to self-defense claims. Ana Schariac, an A-rank Schicksal Valkyrie and leader of the Snow Lotus squad, boasts impressive credentials at just 18 years old, weighing 51 kg. Ana's Early Life and Honkai Battles Ana was born at Coral Island, where she developed extensive combat experience from a young age. She joined House Schariac and began training to fight the Honkai at an early stage. At just 12 years old, Ana became a Valkyrie. Her Promotions and Heroic Acts By age 16, Ana was promoted to A-rank and appointed as the Adjutant of Snow Lotus squad. Her bravery and skills were put to the test when she survived the Manila Honkai Event in 2015, saving dozens of victims on her own. The Oceania Branch's Plans Three years ago, the Oceania Branch implanted the Gem of Desire into Wendy's calf as part of their plans. This development has significant implications for the world and its Honkai battles. Galactic Stairway Project The Galactic Stairway project was first proposed by the United Nations in 2008. After two years of negotiations, it was officially launched, marking an epoch-breaking space exploration and development initiative. Honkai Beast Sighting In 2012, a massive Emperor-class Honkai Beast was spotted in India, requiring special forces or S-rank Valkyries to handle its destructive power. Heliopolis Industrial Area The Heliopolis Shenzhou office is a pharmaceutical industry park with a unique blend of ancient Egyptian architecture. It serves as the operational base for the "Ankh" initiative, highlighting the importance of cooperation and aid in the region. Given article text here The development and transportation of new anti-Honkai medicine to Shenzhou and the Far East was handled by Heliopolis. The living space for employees in Heliopolis provides an abundance of daily utility facilities, making it easy to live. A garden serves as a relaxing area that bridges the research facility and living quarters. The research facility is where researchers conduct their work, with strict security and access control measures in place. Events leading up to the final board, Puzzle Events are designed to unlock pieces of a larger puzzle with each completed mission providing small rewards and a piece of the overall mosaic. Upon collecting all the required pieces, participants receive their main event reward, typically a stigma. HOMU's Treasury Events feature a unique format with a titled board, where players can use purchased keys to flip tiles and potentially unlock exclusive items. Alternatively, Top-up Bonus Events provide bonus items such as ranked battlesuit stamps when reaching specific top-up thresholds. Spending Bonus Events also award rewards for completing supply drops, often in the form of event-limited currencies or directly-awarded outfits. Lastly, Miscellaneous Events encompass any remaining events that don't fit into other categories, including those from outdated game versions that warn against playing on unsupported devices due to WebGL requirements.
