I'm not a bot

# God of war ragnarok guide nioavellir oar

The city of Nidavellir is a key location in your journey, serving as a safe haven before embarking on more perilous quests. As you explore the area, you'll discover a region with rivers connecting it to the larger Bay of Bounty. However, Wretches have been spotted in the nearby sewer, and Aesir will soon be on the hunt for your return. During your first visit, you can complete the side quest "In Service of Asgard" by visiting the mining rigs in the Bay of Bounty to the north. Later, upon returning to Svartalfheim, you'll receive an additional side quest, "The Spirit of Rebellion," which will take you to one of the other beaches in the bay. Additionally, there's a third Favor that can be begun here after completing the game. To access this location, arrive on the boat and look for a dock with a green Soundstone wall, which can be destroyed using Sonic Arrows. The artifact is located nearby. Looking for collectibles in Nidavellir? Here's how to access each one: Run north up the main road to a square with a well in the middle. Check the back-right corner for a Wind Vent to toss your new equipment into, then climb up using it to reach the upper area. On your left, you'll find the Legendary Chest, which also houses the second piece of Lore. To access the second piece of Lore, complete the Forging Destiny main quest and follow the instructions above: use the Wind Vent to climb up and look for the Lore on your right. Collecting this will unlock the Mining Glory Buried Treasure deep in The Applecore. The Nidavellir area features 9 collectible locations essential for trophies and 100% completion. Here are all the collectibles you need: Legendary Chests: 1 Lore: 2 Artifacts: 2 Odin's Ravens: 1 Nine Realms in Bloom: 1 Berserker Gravestone: 1 Spirit of Rebellion: 1 During your initial visit, certain skills won't be available yet. Here are the locations you can access right away: #1 – Artifact (Kvasir's Poems - Large Society Ground Orb) Fire a green arrow at the blockade near the docks to clear the way. #2 – Lore (Scroll – Shopping List) Find this golden lore scroll in the middle of the market square just before reaching the blacksmith shop. #3 – Odin's Raven Look up from the spot where you picked up the previous item and find a Raven perched on a rooftop. #4 – Artifact (Things Left Behind - Griep's Firebomb) Crawl through the tunnel beyond the blacksmith shop to reach this artifact. downhill until you spot a busted bridge on the left side. On top of it, you'll see some airflow or smoke coming out of a wooden chimney, so aim straight across and throw your spear into it to make way for leaping over the broken bridge. On the other side, you should find a flower if this is your first one - it will kickstart the Favor "Nine Realms in Bloom" which requires finding all nine flowers. Favor #8: Spirit of Rebellion This collectible is tied to completing Durlin's Favor "Spirit of Rebellion," available after Mission 10: Forging Destiny. You can get it from Durlin at the end of Mission 10 or accept it later in the tavern. After getting the flower, turn around, leap back over the broken bridge, and follow the path with pumpkins to the house at the end - Durlin will still have the quest available even after the story. To complete it, take a boat to Dragon Beach north of Nidavellir, throw your spear at the climbable wall, cross the bridge on top, use the chisel on a blue shrine to reveal glyphs near the statue, and press square on them for a red chest containing Durlin's hammer. Returning it to Durlin will finish the Favor and unlock the "Rebel Leader" trophy. Waypoints are marked with blue icons on the map for easy tracking. #9 - Berserker Gravestone (Asgard's Fortitude – Amulet Enchantment) Find the Mystic Gateway at Nidavellir town's northern end, which is marked with a blue icon. Teleport from there to Svartalfheim > Nidavellir Beach, available during Mission 10: Forging Destiny. After stepping out of the portal, face forward and you'll see the Berserker Gravestone directly in front of you. To interact with it, get the story item "Inert Hilt of Skofnung" from Mission 9: The Word of Fate first. Once activated, defeat the boss "Hardrefill the Callous" to complete the challenge. That's all the collectibles available in Nidavellir area in God of War Ragnarök. You can also check our review and other guides below for more information. Just before the smithing shop, you can find a golden lore scroll. In the market square, just a few steps away from the smith, there's another one waiting for you. Next to the exit of this area, look up and spot Odin's Raven sitting on top of a house. Crawl through the tunnel past the smithing shop to enter the next area. After exiting the tunnel, turn left and walk into another tunnel where you'll find a purple-shining artifact on the floor. Climb up the tunnel exit and straight in front of you, there's some gas/wind coming out of a wooden pillar. You need the Spear weapon for this one; throw it at the wind to create a path to climb up. At the top, you'll find a Legendary Chest above. Sitting next to it is a green-glowing scroll – that's your next clue! Still in the same area, drop down from the legendary chest and walk downhill until you see a broken bridge on the left. Above it, there's more gas/wind coming out of a wooden chimney; throw your spear into it again to create a path to jump over the bridge. On the other side is the flower, which will start the Favor “Nine Realms in Bloom” for finding all 9 Flowers. For another collectible, simply complete the Favor “Spirit of Rebellion” from Durlin after Main Mission 10: Forging Destiny. Finally, teleport to the Mystic Gateway Svartalfheim > Nidavellir Beach (unlocked during Mission 10) and find Berserker Gravestone with Asgard’s Fortitude – Amulet Enchantment at the northern end of Nidavellir town. Exiting the portal, the Berserker Gravestone will be immediately in front of you. To access it, you'll need to obtain a specific story item called “Inert Hilt of Skofnung,” which is granted automatically at the end of Mission 9: The Word of Fate. Defeating Hardrefill the Callous will grant you 100% completion on all collectibles found in Nidavellir region in God of War Ragnarok.
