Exclusive Demo[edit | edit source] In the field trip in V1.0, Baldi's ruler sprite sheets in the camping and farm trips were swapped. In V1.2, Baldi could through the BSODA spray. In V1.2, Baldi said "Full game public demo!" instead of "Kickstarter exclusive demo!" in the title screen. Baldi's Basics - Challenges Demo[edit | edit source] When Baldi catches the player, the camera positions itself in whatever direction the player was in, sometimes leaving his face not to be seen. This glitch also happened prior to Baldi's Basics Plus V0.1.2. History[edit | edit source] version changes v0.1 added Baldi v0.1.1 Fixed Baldi not moving in the farm field trip. v0.3 Reworked how Baldi moves. His speed is now controlled completely independently from his slap rate. His speed as his anger increases is also now controlled by a curve, and each level has its own curve to allow for a more finetuned difficulty per-level. Baldi now always reaches the same speed once all notebooks are collected. The player still gets an advantage when notebooks are collected before he spawns, but once the last notebook is collected he will always be at the max speed for the rest of the level. v0.3.3 The arts and craftsmen transported the player and Baldi while maintaining a distance between them. v0.3.4 Some of Baldi's dialogue has been modified. v0.3.5 Added rumble support. If enabled, the controller will rumble when Baldi is nearby and when being caught by Baldi. v0.3.8 One of Baldi's audio clips has been corrected v0.4pre Baldi will now congratulate the player on collecting all notebooks on a floor, similar to Baldi's Basics Classic. However, he says "Find a way out before I catch you!" before laughing. Baldi is now affected by Dr. Reflex's hammer; he won't be able to catch you or take an apple from you while it's on. v0.4 Baldi no longer breaks through closed doors as he passes by, but simply opens them. v0.4.1 Fixed Baldi's "Thanks for playing, come back soon!" voiceline when quitting the game not respecting the voice volume setting. If the voice volume is zero, there will be no delay v0.5 Getting sent to detention or teleported by Arts and Crafters now resets Baldi's sound queue. He will now always head directly to the alerted position unless distracted by another source after the player is teleported. v0.6pre Baldi will now talk to the player every time a random event comes on or after collecting all notebooks on a floor. They will be his first new voice lines in a while, due to V0.4's call-out when collecting all notebooks on a floor being a mash-up of pre-recorded voice lines. v0.6 Baldi gradually increased his speed when robbing Johnny's store while it was closed. v0.8 Baldi's speed gradually increases as the floor timer expires and the lights-out event is activated. v0.9pre Baldi now lip syncs while praising the player after they answer a math problem in Baldi's Math Machine correctly. v0.10pre Now Baldi will pull you out of the blue closets when he hears her voice saying, "I know you're there." v0.12pre Baldi's balls began to have a crushing effect on Baldi. v0.13pre Baldi began congratulating a player upon collecting empty activity logs. Baldi has become another way to collect stickers, as they appear next to it when collecting notebooks or completing activities correctly. v0.13pre2 This extension has been removed as of now.
