Continue

Get ready for a fresh take on love stories from New Line Cinema and the unconventional minds behind "Barbarian". Written and directed by Drew Hancock, "Companion" stars Sophie Thatcher, Jack Quaid, Lukas Gage, Megan Suri, Harvey Guilln, Rupert Friend, and more. The film is produced by Raphael Margules, J.D. Lifshitz, Zach Cregger, and Roy Lee, with Tracy Rosenblum and Jamie Buckner as executive producers. Other key creatives include Eli Born (cinematography), Scott Kuzio (production design), Brett W. Bachman and Josh Ethier (editing), Vanessa Porter (costume design), Hrishikesh Hirway (composer), and Rob Lowry (music supervisor). Casting is by Nancy Nayor. "Companion" will be distributed worldwide by Warner Bros. Pictures, premiering in theaters on January 31, 2025, with international releases starting on January 8, 2025.La pelcula "La acompaante" de Drew Hancock gira en torno a la estupidez masculina, mezclando elementos de gnero con una crtica a la estupidez machista. La historia sigue a Iris y Josh, dos jvenes que se enamoran despus de un encuentro accidentado. Se hospedan en una casa rural cerca del lago con amigos y parejas, donde Iris se siente tmida y vulnerable. Sin embargo, descubre que es un robot creado para complacer las necesidades de su pareja, lo que desencadena una cadena de eventos sangrientos.La pelcula es una comedia negra divertida, pero carece de ambicin y profundidad en sus temas. Aunque presenta momentos destacados de humor y horror, no alcanza su mximo potencial y ofrece una experiencia agradable pero no revolucionaria.**Ver triler**La pelcula estar disponible en cines el 31 de enero de 2025 en todo el pas, con una distribucin internacional prevista para el 8 de enero de 2025. Puedes ver el triler y leer ms sobre la pelcula en Dcine.org.La acompaante (Companion, 2025) is a horror comedy that will keep you on the edge of your seat. The film's creators, known for their work on Barbarian, have crafted a unique story with twists and turns that will surprise even the most seasoned horror fans. It's best to go in blind, without seeing any trailers or reading reviews, as the experience is all about being surprised by the journey.The film follows Sophie Thatcher, who delivers a performance that solidifies her status as a Scream Queen. The movie relies heavily on her shoulders, and she takes us on a wild ride with a mix of candor, vulnerability, and irresistible force. It's a bloody and romantic weekend getaway that will leave you breathless.The premise may seem familiar - a group of couples spending a weekend in the country - but it's elevated by its surprises, false assumptions, and fresh take on the thriller whodunit genre. The cast, including Harvey Guilln, Jack Quaid, Lukas Gage, and Megan Suri, is full of actors playing against type, which adds to the film's charm.La acompaante also explores the limits of ethical boundaries in the face of technological advancements, making it a thought-provoking commentary on our times. While some of the flaws from the debut of Zach Cregger, who produced the film, are evident - such as relying too heavily on impact and straying from the main narrative in flashbacks - they don't detract from the overall experience.The film's corrosive look at relationships adds to its appeal, making it a must-see for fans of horror comedy.La pelcula "La acompaante" de Drew Hancock no es una experiencia estticamente atractiva, pero su tono bobalicon y su ritmo mantienen la atencin del espectador. Aunque tiene un look genrico, se destaca por sus momentos inesperados y grotescos, aunque no llega a ser tan intensa como "Barbarian". Su secreto est en los temas que explora, como el control sobre las mujeres en las relaciones contemporneas, el utilitarismo de las parejas y la toxicidad del narcisismo.The movie "Companion" is presented by Warner Bros. and produced by BoulderLight Pictures, Vertigo Entertainment, and Subconscious. It will premiere in Spanish cinemas and US theaters on January 10, 2025. You can watch it on YouTube.This film, along with other videos, can be found in our Dailymotion channel or the trailers and movie clips section of our website."Companion" - A satirical horror-comedy created by writer-director Drew Hancock. Iris (Sophie Thatcher) is a humanoid robot programmed for perfect companionship. Her buyer/boyfriend Josh (Jack Quaid) takes her to a weekend getaway with his friends, including Kat (Megan Suri), Eli (Harvey Guilln), Patrick (Lukas Gage), and Sergey (Rupert Friend).However, when Iris's programming goes wrong, she becomes sentient and violent. The film is an homage to "The Stepford Wives" and explores themes of post-capitalist society, loneliness, and institutional misogyny.In Hancock's world, technology can be used for various purposes, including sex, dedication, or torture. The script has effective punchline comedy and hilarious performances from Quaid and Guilln. Thatcher shines as a dramatic actress, capturing the android capabilities of Iris.Despite not fully maximizing its potential, "Companion" delivers great moments of horror and comedy, with well-balanced tension and excitement. However, the plot can become convenient at times.Companion, a sci-fi horror film, explores themes of mechanized misogyny and non-consent, but shies away from delving deeper into their consequences. The movie centers its jokes on the characters' apathy and lack of accountability, making it an enjoyable romp despite its unoriginal concept. With well-realized direction and performances, Companion is a worthy comparison to the great "Ex Machina."Companion is a film that expertly directs its audience into the world of its protagonist, Iris, played by Sophie Thatcher. Thatcher's performance is crucial to the film's success, as she brings depth and complexity to the character, making her both compelling and emotionally resonant. The robot's ability to change almost anything about Iris, from her intelligence to her eye color, adds a layer of intrigue to the story. However, this also raises questions about the nature of control and manipulation in the film.Stuck with You: A Thrilling Love Story That's Not to Be MissedJ Great script! Awesome actors and a fun time! Rated 5 out of 5 stars. The movie Companion is really cool, it hooks you from the beginning and never lets go. I was glued to the screen the entire time. It's refreshing and fun with great concept and twists. Overall, an awesome and entertaining movie if you're looking for something different or out of the box to watch. Definitely recommend.This was an incredible take on an already done concept. Robots and AI aren't new but the spin that was done with this movie is to be remembered and to be praised for its greatness. It's a sci-fi thriller with a good storyline and done in a way that surprisingly isnt cheesy. Overall, its a 5 out of 5 stars.Yes, its a sci-fi thriller with a good story line and done in a way that surprisingly isnt cheesy.
