Internet Download Manager License Topic ===== You may register a 30-day free trial version of Internet Download Manager for a special price. For any questions regarding IDM, please contact our Free Support Service. To troubleshoot issues with Internet Download Manager (IDM) language settings, follow these steps: 1. Contact the site administrators if they are sending incorrect data or always send files from scratch. 2. Download the .ZIP file and exit IDM. 3. Copy all extracted files to the "Languages" subfolder in the IDM root folder (default location: "C:\Program Files\Internet Download Manager\Languages\"). 4. Start IDM again and select the language using the "Views—Language" menu item if it hasn't changed automatically. Please update IDM to the latest version by checking for updates using the "IDM Help—Check for updates..." menu item. If you don't see the IDM Integration module extension in Chrome's list of extensions, install it from the Chrome Web Store using the direct link below: Configure the IDM extension for Chrome by following these steps: 1. Open Chrome and click on the menu (arrow 1). 2. Select "More tools" (arrow 2) and then "Extensions" (arrow 3). 3. Find the IDM Integration Module extension and press the "Details" option (arrow 4). 4. Ensure that the extension is enabled (arrow 1). 5. Allow the extension to read data on all sites (arrow 2). 6. If you're using incognito mode, enable the "Allow in incognito" checkbox (arrow 3). Note: This article is for educational purposes only and not responsible for how IDM's premium product is used.
