Bankai vs Super Saiyan? Which form will be stronger? The worlds of Dragon Ball and Shinigami merged into one, and the warriors of both the universe are fighting with each other. Dragon Ball Z vs Bleach is a 2D fighting game made with Mugen engine by Ristar87. You can choose from a many game modes, as in most games based on Mugen. Fight against the CPU one on one, or two by two. Invite a friend to play with and fight against each other or collaborate in the battles against computer opponents. Do you feel strong? Check your skills in survival mode, in which your HP isn't renewed at each round. If you need to improve your skills, use the training mode. You can also set any key bindings for both players. The game includes 40 playable characters. Character select screen is different from those you can meet in other games of this type. You can chose your hero by pressing Left and Right arrow keys, but you can also choose another form of the character (for example, SSJ Goku) by pressing Up or Down arrow keys. You can also fuse Goku and Vegeta by going Right for Vegeta SSJ (or SSJ4), and Left for Goku SSJ2 (or SSJ4) to get Gogeta. The game also includes two hidden characters - Broly and Uryu - you can choose them by pressing Left arrow key on Goku SSJ5 and Ichigo Vasto Lorde. The characters were made by many of well-known on the Mugen scene creators. They have been balanced, so fights are smooth and no one is invincible. The stages where you'll fight - there are 35 different arenas - and music are from other Dragon Ball Z and Bleach games. The author didn't use custom songs of his favorite bands. Dragon Ball Z vs Bleach looks very solid and for any fan of these two series, this will be an amazing experience. The game was made on a newer version of Mugen engine, so no worries about properly run on newer Windows systems. How to install? You can play this game without installing. Unzip the downloaded file (you can use WinRAR for example). Run DBZ vs Bleach.exe in the main game folder. Additional information If you want to play the game on fullscreen, press Alt + Enter. Some characters folders (Game/chars/) contain Read-me files, in which you can find special moves and tips how to play more effectively. Useful links Download ► Play Now! From simple things such as how to install game to more complex stuff like how to add characters, etc. 8/10 - 105781 votes Played 17 627 145 times Bleach Vs Naruto is finally back in a version 3.3 bringing its share of new features: 3 new main characters, 2 summon characters and various optimizations and bug fixes. The Bleach series is particularly in the spotlight with a full redesign of Ichigo (version with his half-mask), the addition of the little Soifon, the Commander-in-chief of the Onmitsukido, as well as Byakuya Kuchiki and the pretty strawberry blonde haired Rangiku Matsumoto as summon characters. From the Naruto side, check out a new version of Kakashi Hatake, the smart leader of Team 7, better known by the nickname "Copy Ninja". This fighting game, very popular with fans of the genre, now offers a total of 48 main and 35 summon characters.
