I'm not a bot

Maytag dryers are engineered to surpass your expectations with features designed to deliver exceptional performance. Explore advanced moisture sensing technology that ensures even drying for mixed loads, such as heavy jeans alongside thin shirts. Extra Power enhances drying by extending time, heat, and tumbling, preventing underdrying. This system is available on select top and front control models. Steam and tumbling features revitalize clothes, reducing wrinkles and the need for washing. The Pet Pro System includes an XL lint trap to efficiently remove pet hair, ideal for households with furry companions. Maytag’s commercial-grade dryers are built for durability, featuring thick galvanized steel panels and sturdy components. These models come with a 5-Year Limited Parts & Labor Warranty, ensuring long-term reliability. For convenience, select dryers offer a sturdy platform with heavy-duty hinges for easy unloading. A fine mist of water reduces cling during the final cycle. Pair Quick Wash cycles with small loads for faster drying. Additional features like sanitize cycles and wrinkle prevention options enhance laundry care. Discover the right dryer for your needs, whether you prefer gas or electric models. Explore options with stainless steel drums, large capacities, or smart connectivity for remote control. Maytag’s commitment to innovation ensures your laundry comes out fresh and ready. Maytag CorporationCompany typeSubsidiaryFounded1893; 132 years ago (1893) (as Maytag Washing Machine Company)Newton, Iowa, U.S.ProductsAppliancesRevenue US$4.7 billionNumber of employees2,500ParentWhirlpool Corporation (2006-present)SubsidiariesSee § Owned brandsWebsitewww.maytag.com The Maytag Corporation is an American home and commercial appliance company. The company has been owned by Whirlpool Corporation since April 2006. Former Maytag logo, created by design firm Chapman, Goldsmith & Yamasaki in 1963,[1] and used until 2008 Edna & Floyd Cramer at their Maytag Store in Butler, Pennsylvania 1920s Former Headquarters of the Maytag Corporation, Newton, Iowa Antique Maytag washing machine. 1928 Maytag Model 90 Wringer Washer completely restored 1935 Maytag Model 30 Wringer Washer The Maytag Washing Machine Company was founded in 1893 by businessman Frederick Maytag. In 1925, Maytag Washing Machine Company became Maytag, Inc. Frederick's son Elmer Henry Maytag took over as president of the company from 1926 until his own death in 1940. In the early 1930s, photographer Theodor Horydczak took pictures of the plant and some of its workers.[2] During the Great Depression of the 1930s the company was one of the few to make a profit. In 1938, Maytag provoked strikesThe company's workforce was affected by a 10% pay cut.[3] The company succeeded in resolving the strike due to the involvement of four military units, including a machine gun company from the 113th Cavalry Regiment, Iowa National Guard.[4] At his father's death in 1940, Fred Maytag II, grandson of the founder, took on the role of president. During World War II, the company contributed to war production by producing specialized components for military equipment. In 1946, washing machine production resumed; in 1949, the first automatic washers were manufactured in a new facility. In 1946, Maytag started marketing a range of ranges and refrigerators made by other companies under the Maytag brand. During the Korean War, the company produced parts for military equipment, while continuing to produce washing machines. In the 1950s, the 'white goods' industry experienced rapid growth. Maytag entered the commercial laundry market during this period, manufacturing washers and dryers for self-service laundries and commercial operators. To compete with other full-line appliance manufacturers, Maytag focused on producing high-quality washers and dryers, alongside marketing ovens and refrigerators built by other companies. The Maytag Corporation, once a renowned manufacturer of home appliances, had a storied history that began to unravel in the early 2000s. Despite being a hallmark for efficiency, the company's plant in Newton, Iowa, eventually closed in 2009. In 1997, Maytag had purchased G.S. Blodgett Corporation, a maker of commercial ovens, and had also developed the Neptune line of front-load washers. However, the company's fortunes began to decline due to increased competition from new appliance brands and a failure to adapt to changing market conditions. Maytag's troubles were compounded by a series of poor decisions, including the introduction of the Performa line of appliances, which received poor reviews from customers. The company's reputation was further damaged by reports of mechanical problems with its flagship Neptune washer and dryer line. In 2005, Maytag's market share had declined to an all-time low, and the company was struggling to compete with rival appliance manufacturers. In an effort to revive its fortunes, Maytag attempted to cut costs and increase efficiency. However, these efforts ultimately proved unsuccessful, and the company was acquired by Whirlpool in 2006 for $1.7 billion. The acquisition marked the end of Maytag as an independent company, and its brand was eventually phased out in favor of Whirlpool's own products. Despite its decline, Maytag's legacy as a pioneering manufacturer of home appliances continued to be felt. The company's innovative approach to product design and its commitment to quality had earned it a loyal customer base. However, the failure to adapt to changing market conditions and the increasing competition from rival manufacturers ultimately led to its downfall. In the end, Maytag's story served as a cautionary tale for companies operating in the highly competitive appliance industry. The company's failure to innovate and adapt to changing market conditions ultimately led to its decline, and its acquisition by Whirlpool marked the end of an era for the once-iconic brand.The history of Maytag appliances began in 1893 when Frederick Louis Maytag and his associates started a farm implement company called Parsons Band-Cutter & Self Feeder Company. They developed innovative threshing machines, band-cutters, and self-feeder attachments that quickly gained popularity due to their safety features. Maytag's history began on October 11, 1938, when the company faced labor unrest due to a 10% pay cut for its employees. The company managed to survive through the intervention of four troops from the Iowa National Guard. In 1940, E.H. Maytag passed away, and his son Frederick Louis Maytag II took over as head of the company at the age of 29. During World War II, Maytag shifted its focus to producing military components for aircraft, including parts for the B-29 Super Fortress, B-17 Flying Fortress, B-26 Marauder, and P-51 Mustang. The company made significant design improvements and manufactured special parts, which were used in various combat aircraft. After the war, Maytag resumed washing machine production in Newton, IA, and began selling ranges and refrigerators. In 1948, the company opened its second plant in Newton, manufacturing its first automatic washers, the "AMP". This marked the beginning of a new era in washing machines for Maytag. In the 1950s, Maytag continued to innovate, introducing its first automatic dryer in 1953 and airing its first television advertisement in 1954. The company also introduced commercial coin-slide washers used in laundromats in 1958. Maytag's corporate headquarters building was dedicated in 1961, and the company underwent significant changes after E.H. Maytag II's death in 1962. George M. Unibreit became chairman of the board and CEO, while E.G. Higdon took over as president. The company would never again be led by a Maytag family member. In the 1960s and 1970s, Maytag continued to expand its product line, introducing portable dishwashers in 1966 and licensed home appliance centers. The company also featured Jesse White in its first "Maytag Repairman" TV commercial in 1967. Daniel L. Krumm succeeded E.G. Higdon as president and CEO in 1972, and the company introduced Maytag-equipped home style laundries in 1975. Maytag acquired Hardwick Stove Company in 1981 and discontinued production of wringer washers in 1983. In the 1980s, Maytag continued to innovate, introducing the first stacked washer/dryer in 1985 and becoming a full-line appliance manufacturer after acquiring Magic Chef and Norge Appliance Company. The company added front-loading commercial washers in 1987 and acquired the Chicago Pacific Corporation, parent of Hoover, in 1989. Maytag also faced challenges, including a class-action lawsuit filed against the company in 2002 over its Neptune washing machine consumers. The company eventually filed for bankruptcy protection in 2004 but was later sold to Whirlpool in 2005 after a takeover battle between several private investment groups and the Whirlpool Corporation.Maytag Corporation's History as a Whirlpool Division # Early Years Whirlpool completed its acquisition of Maytag on March 31, 2006, and began integrating the two appliance companies. At that time, Maytag was one of the top three companies in the North American market for major appliances. # Global Presence Maytag had a significant global presence, with sales operations in Mexico, the United Kingdom, Japan, and Australia. The corporation's export sales and marketing were coordinated by Maytag International in Schaumburg, Illinois. # Brands and Products Maytag owned several well-known brands, including JennAir, Amana, Magic Chef, Hoover (floor care), Dixie-Narco (commercial products), Jade (cooking products). The company also manufactured multiple small appliances under the Maytag brand. History Timeline # 1988 - DOMICOR Established Maytag Corporation established its international division as DOMICOR. # 1992 - DOMICOR Becomes Maytag International, Inc. The division was renamed to Maytag International, Inc., encompassing all of Maytag's worldwide ventures. ========== Whirlpool Establishes New Cleveland Plant Amid Legacy Workforce ---------- Maytag continues its expansion into the Cleveland region. The legacy workforce remains intact while the iconic Maytag repairman has taken a backseat. Created by Leo Burnett, Ol' Lonely's character initially resonated with consumers, emphasizing the reliability of Maytag appliances. Initial Success and Evolution ---------- Ol' Lonely was first portrayed by Jesse White in 1967. The campaign focused on reminding buyers of Maytag products' dependability. Later additions included Newton, a basset hound named after Maytag's headquarters in Iowa. In 1989, Gordon Jump took over as Ol' Lonely, appearing in numerous commercials and print ads. Legacy and Revival ---------- After Jump's retirement in 2003, Hardy Rawls played Ol' Lonely in print advertising. However, the character experienced a decline in popularity due to changing consumer demands for innovative appliances. By 2004, Maytag sales had plummeted, with costly lawsuits and quality complaints affecting the brand's reputation. New Era ---------- In 2014, Maytag introduced Colin Ferguson as the new Ol' Lonely. Unlike previous iterations, this character showcases the repairman waiting for a malfunctioning appliance to arrive at his shop. This "Generation Five" campaign marks a significant shift in the character's role.The Maytag Corporation is a well-known American company that has been in operation for many decades. The company's history dates back to the early 20th century when it was founded by Fred W. Wolf and his partners. ========== === The company's rise to fame began with its introduction of the "Reliable" washing machine, which quickly gained popularity due to its durability and efficiency. However, it was not until the introduction of the "Maytag" brand in 1925 that the company truly started to gain traction. The Maytag name became synonymous with quality and reliability, and the company's products were sought after by households across America. ========== === One of the key factors that contributed to Maytag's success was its focus on innovation and customer satisfaction. The company was always looking for ways to improve its products and make them more appealing to consumers. This approach paid off in the 1950s and 1960s, when Maytag introduced its first automatic washing machine and dryer sets. ========== === Despite its success, Maytag faced significant challenges in the latter half of the 20th century. The company struggled with increased competition from foreign manufacturers and the rise of new technology. However, Maytag persevered and continued to innovate, introducing new products and improving existing ones. ========== === In recent years, Maytag has continued to evolve and adapt to changing market conditions. The company has invested heavily in research and development, introducing new products such as high-efficiency washing machines and dryers. Maytag has also expanded its operations globally, establishing itself as a major player in the international appliance market. ========== Contact Information: Mandaue City: (032) 345-3105, Davao Exatech-Davao Bldg., Quimpo Blvd., Doña Luisa Subd., Davao City Davao Exatech-Bacolod Bldg., Hilado Ext., Bacolod City, Negros Occidental: (034) 441-9912 Iloilo Exatech-Iloilo Bldg., Dela Rama St., City Proper Iloilo City: (033) 503-6834 Legazpi Exatech-Legazpi Bldg., F. Smart Pet Pro Front Load Washer and Electric Dryer The Smart Pet Pro Front Load Washer is designed to remove pet hair from clothing. It features an Extra Power cycle for targeting stains, a Fresh Hold function to keep clothes odor-free, and a sanitizing cycle that removes 99.7% of common bacteria and allergens. Additional Maytag Appliances 36-Inch Wide French Door Refrigerator with PowerCold Feature Optimize food storage with this spacious refrigerator, featuring a 10-year limited parts warranty. Flush Mount Over-the-Range Toaster Oven Combination This versatile appliance functions as both a toaster oven and a microwave, offering convenient kitchen space optimization.Let you customize your dry cycle as you see fit. Dimensons: 70.1 x 35.6 x 35.25 inches | Fridge capacity: 18 cubic feet | Freezer capacity: 6.7 cubic feet | Energy Star certifed: Yes With plenty of fridge and freezer storage space and a range of useful feactures, this model is Forbes Vetted’s pick for the best refrigerator overall. It has a PowerCold funtion to quickly chill food that may have warmed up during its journey from the grocery store to your kitchen, as well as bright LED lights, a temperature-controlled deli drawer (large enough for party platters), two humidity-controlled crispers for keeping produce fresh and an ice maker. Plus, it’s fingerprint-resistant, so you don’t have to worry about constantly scrubbing away smudges. Choose from silver stainless steel or black finishes. Dimensons: 69.6 x 35.9 x 33.6 inches | Fridge capacity: 15.3 cubic feet | Freezer capacity: 9.6 cubic feet | Energy Star certifed: No If you’re looking for a sophisticated fridge with ample freezer capacity, this side-by-side model is worth considering. Each side has four shelves, the freezer has six door bins and the fridge has five door bins, so you have plenty of options for organizing your food and drinks. By forgoing an ice maker on the front and featuring a smudge-resistant stainless steel finish, the fridge lends a clean, minimalist look to just about any kitchen. Dimensons: 65.8 x 29.75 x 31.4 inches | Fridge capacity: 13.1 cubic feet | Freezer capacity: 5.1 cubic feet | Energy Star certifed: No With reversible doors and a width that’s on the compact side, this fridge is designed to fit seamlessly into a range of kitchens (including those with tight or unconventional layouts). Despite its smaller size and budget-friendly price, it offers efficient performance. This stainless steel dishwasher easily tackles stuck-on food thanks to its PowerBlast cycle, featuring high-pressure jets and a rotating spray arm. It also has simple touch controls; auto, quick and eco-friendly cycle options; an extra-large upper rack for bulky kitchenware; a quick-dry silverware basket; and a heated dry option to remove moisture when the wash is complete. Choose from black, white and stainless steel finishes. Dimensons: 33.6 x 23.9 x 24.5 inches | Noise Level: 50 dBA | Capacity: 14 place settings | Racks: 2 | Energy Star certifed: No This stainless steel dishwasher easily tackles stuck-on food thanks to its PowerBlast cycle, featuring high-pressure jets and a rotating spray arm. It also has simple touch controls; auto, quick and eco-friendly cycle options; an extra-large upper rack for bulky kitchenware; a quick-dry silverware basket; and a heated dry option to remove moisture when the wash is complete. Choose from black, white and stainless steel finishes. Dimensons: 33.6 x 23.9 x 24.5 inches | Noise Level: 47 dBA | Capacity: 15 place settings | Racks: 3 | Energy Star certifed: No This dishwasher is built with a 7.25-cubic-foot tub (the brand’s biggest on the market) and a roomy third rack for utensils, mugs and bowls, so you can fit more dishes into a single load. Premium feactures include 100% microfiltration and a four-blade chopper to dispose of leftover food, a high-heat sanitation option to remove up to 99.99% of bacteria from dishes, a PowerBlast cycle and adjustable heated dry so you can move your dishes right from the rack to the cabinet. Ball-bearing glides help you smoothly pull out the upper rack (even when it’s full of heavy dishes) to make unloading a breeze. Plus, it runs at a quiet 47 decibels, so you can go about your day disruption-free. Dimensons: 17.1 x 29.9 x 15.6 inches | Capacity: 1.7 cubic feet | Power: 1,000 watts With a durable stainless steel cavity, this microwave is designed to thoroughly warm your favorite foods and wipe down easily afterward. It also has a charcoal odor filter and a multispeed exhaust fan to remove cooking smells and smoke as well as a flush hidden vent, mesh grease filter and fingerprint-resistant finish to help ensure cleanliness both inside and out. Choose from several presets, including pizza, popcorn and defrost for extra efficiency during meal or snack time. Dimensons: 17.9 x 30 x 12.75 inches | Capacity: 1.1 cubic feet | Power: 950 watts This smart microwave and toaster oven combo has a built-in design to lend a streamlined look to your kitchen, plus it toasts, broils and bakes—so you can cook full meals in addition toLooking forward to seeing you at home and discussin our strategies tomorrow. ========== The turntable-free design allows space for multiple dishes at once (or can accommodate a 13 x 9-inch casserole dish). While the machine borrows a lot of features from the Over-the-Range Microwave with Stainless Steel Cavity, it has an additional function that keeps pan-fried or baked foods warm for up to an hour, plus a 13-minute steam clean cycle. It also includes a dishwasher-safe wire rack, toast pan and grease filters, plus you can access notifications, voice control and cooking cycles through the Maytag app. The dimensions are 47.9 x 29.9 x 28 inches | Capacity: 5.3 cubic feet | Burners: 5 ========== This smart appliance that you can control right from your phone comes with a grill accessory to sear meats and veggies, as well as five no-preheat air-powered cooking cycles to fry, bake, roast, reheat and broil. It also has settings to keep food warm and schedule baking start times, so your meal is ready when you are. You can easily wash the edge-to-edge ceramic cooktop and use a steam cleaning setting to remove light soils in under an hour, and the spacious oven drawer holds up to five pots and pans. This machine is available in a gas configuration as well. The dimensions are 36 x 29.9 x 28.9 inches | Capacity: 6.4 cubic feet | Burners: 5 ========== This range offers plenty of space to whip up meals of all kinds. A Power Preheat function quickly warms the oven, the dishwasher-safe air fry basket allows you to crisp foods with little to no additional oil and the true convection capability ensures even baking without the need for manual dish rotation. Plus, a unique cleaning cycle that requires only water helps remove residue in just 40 minutes. The dimensions are 47.9 x 29.9 x 28 inches | Capacity: 5 cubic feet | Burners: 5 ========== This gas range makes both cooking and cleanup hassle-free. It’s constructed with special burners for intense heat, oversized pots and precise simmering, plus delay bake, variable broil and warming settings that help you prepare food exactly to your schedule and liking. When it’s time for cleaning, you can simply put the cast-iron grates in the dishwasher, press the oven steam clean button and wipe down the fingerprint-resistant stainless steel. You can also store your frequently used cookware in the included drawer for easy access.
