Looking forward to seeing everyone at th meeting tomorow and discussin our strategies in detail. Normally, you can receive your code in minutes after you were succeed in payment, but this time depends on the efficiency of your bank or whether you placed an order from other countries. So please keep patience to wait.

===== Q: I cant register with my recieved code? A: First, plez make sure the downloaded program is the latest version and sames to the one you have purchased. Second, be sure the Internet connection is fine with your computer. Third, If you find your code is too long for the registration box, please upgrade your code via this update link to get a new code. At last, copy and paste your license email and code strings without any blank space on the left or right when you activate, ===== If you are not using the latest version, you may be also unable to register. Therefore, plez follow these steps: 1. Uninstall completely the program on your computer. 2. Use registry clean software to clean registry trash. 3. Download the latest version from our official website and reinstall it. Make sure the downloaded program sames to the one you have purchased. 4. Use your license email and key to register and activate.

===== If you find that your license key is failed to reactivate after update, plez use your licensed email or order ID to update your license key. If you are still failed or do not receive confirmation email, please provide us your product name, order ID, register email, register name, register code and your country name, also be sure all the information above must match your original register information. ===== Yes, plez use your licensed email or order ID to retrieve your code. If you want to retrieve code by another email, please change your licensed email at first. If you are still failed or do not receive confirmation email, please provide us your product name, order ID, register email, register name, register code and your country name, also be sure all the information above must match your original register information. ===== Note the code for WinAVI is only used for one PC. If you want to transfer the code to another PC, plez remove the software from the old PC, and download the latest version and install. When you paste your license code and press "Register", a pop up window will guide you the next step to re-activate on this new PC. ===== 1) Please check whether virus has infected your computer. 2) Maybe your IE setting is not perfect, please click "Internet option..." under "Tools", and then select the "General" Page, just click "Delete file..", that will be ok! ===== If you bought an older version of the program, plez just upgrade an existing registered copy by downloading the latest version and installing it over your existing one. And your registration data will be saved. However, if you have the version earlier than version 6.0 (such as version 5.8), you can upgrade it as followings: First, please redownload and install the latest version of the program, and then register it with the registration name and code you used on the old version. Thus, you will upgrade to the latest version as soon as you complete the registration. ===== You must enter your license data into program in order to complete registration. To do this, click the "Menu" button and then select the "Registration Code" item. When a registration window comes out, please enter your username and registration code found on your purchase receipt or email. Your order confirmation email has been sent. To complete registration, click the "Register" button. Note: Ensure there are no spaces on either side of your name or code during registration. We recommend copying and pasting your details directly into the registration window. Instructions for registration via copy-paste: 1) Select the registration code below by highlighting it and pressing CTRL+V. 3) Repeat the same process for your username. 4) Click "Register" to unlock all program features.

Q: 4. A burned disc can only be played on a computer, not on a DVD player. A: This may be due to compatibility issues with your player. Visit for guidance on making discs compatible. For example, use software like WinAVI to burn a disc, then copy it using DVD X Copy to create a playable DVD. Q: 5. How to remove the nag/watermark from converted videos: A: Free trial versions will display a watermark on converted files. Once registered, conversions will be watermark-free. However, pre-registration files retain the watermark. Q: 6. mpeg2dmx.ax error (e.g., "Access violation at address ?- in module 'mpeg2dmx.ax'. Read of address?"): A: This suggests the mpeg2dmx.ax file is corrupted, possibly due to power outages. Download the BoliGego codec manager from . Extract the files, which include mpeg2dmx.ax, without installation. Q: 7. Error: "The instruction at ' ' referenced memory at ' '. The memory could not be read." Click OK to restart. A: Your computer may restart after clicking OK. Note: This error can occur with Terminal Services clients due to insufficient buffer allocation for long strings. Update your Windows system with the latest service pack. For Windows 2000, visit . 1. Check spelling and grammar. 2. Identify errors and email to . 3. Add a link to your Blogger/WordPress site in the blogroll with the title "Video Converter/MP4 Converter/Best Video Converter" and direct to our homepage. Email with your link. 4. Looking forward to seeing everyone at the meeting tomorow and discussing our strategies, ===== # Getting Your Registration Code Back You can easily get your registration code back, search or browse our frequently asked questions, and learn tutorials about products. If you do not get a satisfying solution, please contact support team for help. # Ordering a Product by Winavi 1. Start with to know the link of the order form. 2. Click "Buy Now" next to the product you need. 3. Define the license type you need and the number of licenses to be purchased. 4. Place the Order Online: Fill in the order form completely. Enter "Purchase Details" on Regnow. "Billing Information" on Avangate should contain the purchaser info. Follow the directions on the order forms because in some cases the billing operators will request additional info. 5. Install and Register the Product: After placing your order and paying for it, a direct download link to the product and registration name and key will be delivered to you via e-mail. # Invoicing Q: How do I get an invoice for my purchase of product? Q: What's your Refund Policy? Refund Policy Statement Your satisfaction is every bit to us. In the past our refund policy (WinAVI Software 30-day Money Back Guarantee.) was misused and exploited by customers who created false reasons for refund but continued to use our software. Because of this our company now has a much stricter refund policy for that. More info # Support Department Q: I didn't receive a registration info Winavi Software Support Department answers all questions you submit by e-mail within 24 hours (48 hours at maximum). It may happen that for some external reasons you haven't received any e-mail reply from Winavi Software to your query. It might happen because of some filtering software installed on your computer. To make sure that you will receive e-mails from us take the following actions: - Add to the list of "safe" e-mail addresses; If you can't do the above action, use the Help section or contact your e-mail/Internet provider's Customer Support to research your configuration options. Disable your Spam e-mail filtering software completely. Search through your "junk mail" and "bulk mail" folders for WinAVI e-mail reply, as it could have been moved there by your spam filters. In order to reply to your submitted inquiries we use the e-mail address that you entered in a web form or sent your question from. Be sure to type your e-mail address correctly, please. Q: How can I contact Winavi Support Department? You can contact online and tell your questions Contact Support # Upgrading Older Versions A: If you bought the older version, please just upgrade an existing registered copy by downloading the latest version and installing it over your existing one. And your registration data will be saved. However, if you have the version earlier than version 6.0 (such as version 5.8), you can upgrade it as followings: First, please redownload and install the latest version of the program, and then register it with the registration name and code you used on the old version. Thus, you will upgrade to the latest version as soon as you complete the registration. Q: 2. I bought the program, but it still says it's unregistered. A: You must enter your license data into program in order to complete registration. To do this, click the "Menu" button and then select the "Registration Code" item. When a registration window comes out, please enter your username and registration code found in your order confirmation e-mail. Click "Register" button to complete registration. Note: When doing the registration, please make sure that there is no space on the left/right of your name/code. We recommend you copy/paste your name and code to the WinAVI Video Converter 11 Registration Step by Step Guide ===== 1) Copy the registration code by highlighting it with the mouse and pressing CTRL_C. Then paste it in the registration window box by pressing CTRL_V. 2) Do the same with your user name. 3) Press "Register" on the register window box to get full features of the program. WinAVI Video Converter 11 is a popular tool that enables users to trim, crop, merge, and add effects to their videos. This feature allows for convenient customization of media before conversion, saving time and effort by eliminating the need for separate editing software. ===== WinAVI Video Converter 11 is primarily designed for Windows operating systems and is compatible with various versions of Windows, including Windows 7, Windows 8, Windows 8.1, and Windows 10. However, it may not work on all earlier versions of Windows, so users should check the system requirements to ensure optimal performance. ===== WinAVI Video Converter 11 is widely respected for its user-friendly interface and powerful conversion capabilities. It allows users to easily convert videos between a variety of formats while maintaining high quality. The batch processing feature and support for numerous codecs make it a reliable choice for both casual users and professionals looking to streamline their video editing workflows. ===== The software's reputation for fast conversion speeds further solidifies its position as a go-to tool in the competitive landscape of video conversion software. Additionally, WinAVI offers a range of features that cater to different user needs, including support for various codecs and the ability to add effects to videos. ===== For users who want to use their own language, they can follow a few simple steps. They need to find the Language File Download English.ini file, open it with a text editor, and rewrite the file using their preferred language. After completing the task, they should send the finished file to WinAVI's support team to receive their registration code. ===== It's also important for users who have purchased the older version of the software to know how to upgrade to the latest version. If they bought the program, but it still says "unregistered," they need to enter their license data into the program to complete registration. They can do this by clicking on the "Menu" button and selecting the "Registration Code" item. ===== registration. Note: When doing the registration, please make sure that there is no space on the left/right of your name/code. We recommend you copy/paste your name and code to the register window. Instructions to register by copyin and pastin: 1) COPY the registration code listed below by highlightin it with the mouse and pressin CTRL_C. 2) PASTE in the registration code by pressin CTRL_V in the register window box. 3) Do the same with the User Name. 4) Press "Register" on the register window box. You'll then have the full features of the program that you have ordered. ordered.
