Are you looking to make a large sum of RP through glitches in GTA Online? There have been many glitches in recent years, but most have been patched and no longer work. The good news is that a few glitches are working in 2024, allowing you to obtain tons of RP without much effort on your part. Here are the best GTA Online RP Glitches working in 2024. The first GTA Online RP glitch we have for you requires that the Peyote plants be online, which generally lasts seven days, so you should be fine there. Once the Peyote Plants are online, Google the locations of a Peyote Plant and then follow the steps below. Head to a Peyote Plant location Interact with the Peyote Plant to turn into an animal. Open the Pause menu and select "Quit to Main Menu" under the Online section. Load back into an online session. After you load back into the online session, you will notice that you have obtained 5,000 RP, and the Peyote Plant you ate has respawned. Rinse and Repeat the steps mentioned to farm as many RP as you'd like! The next RP Glitch can be done AFK, allowing you to gather a ton of RP without even playing the game. You first need to purchase the Up-n-Atomizer weapon from a gun store to do this glitch. Additionally, you need to download AFK playlist jobs into your game. Below are links to download AFK playlist jobs corresponding with the console you are playing GTA Online on. Xbox AFK Playlist PlayStation AFK Playlist PC AFK Playlist Once you have the Up-n-Atomizer weapon in your inventory and added AFK Playlists, follow the steps we have laid out for you below. Head to the Online tab in the Pause Menu. Select Playlists and then My Playlists. Load into an AFK Playlist. Choose Up-n-Atomizer as a starting weapon. Confirm settings and press play. When you enter the job, equip the Up-n-Atomizer weapon and shoot into the distance. After approximately 20 minutes, the round will conclude, and you will be rewarded with around 4,000 RP. This is because all enemies will react to your shooting and die in the water. If you want to do this AFK, you can place a small item down on the button you use for shooting or tie a rubber band around the trigger if you play on a console. You can do this solo and you can do this in an Invite Only session to avoid other players. It's that easy. This method still works after the latest patch, so you can still do it even on next-gen systems like PS5 and Xbox Series X|S. Here's how to do the Payphone Hit RP glitch in GTA Online. GTA Online Payphone Hit RP Glitch Explained This glitch involves killing a certain assassination target over and over again, earning RP each time. It works for as long as you want, so you can easily level up into the thousands with this method. To start, you have to keep calling Franklin for a Payphone Hit until you receive The Popstar as a target. If you get a different target, then you'll have to find a new session and try again. It has to be The Popstar, otherwise this glitch won't work. Once you have the Payphone Hit for The Popstar, find him and block his car's path to force him to stop. This can take a few tries, and you'll want to find a good spot without much traffic or anything that could interrupt you. When he's stopped, get into his car from the passenger side. This will cause him to fall out of the driver's side door. As soon as he falls, take the car and drive the front wheels onto his legs. You will start to earn RP if done correctly. Do not let him get up. If the target gets up, find a new session and try again because he won't give you all the RP you're looking for. As long as you keep the car parked on his legs as you're earning RP, you won't stop earning. You can level up as high as you want, there's no cap with this glitch. You can see the glitch in action in the video below. If you're planning on doing this RP glitch for yourself then act fast, because Rockstar tends to patch these exploits fairly quickly. This one has gone unpatched for quite some time though, and even recent updates have failed to remove it. Take advantage while you still can! While the multiplayer game increases your ranking automatically at lower levels, it becomes a slow process after a while. However, a YouTuber named LaazrGaming discovered a glitch that allows players to farm unlimited RP and rank up quickly in the game. The glitch takes advantage of the increased money and RP reward offered by Rockstar Games in the most recent weekly update. As is customary, players can earn a decent amount of money by exploiting the glitch. According to the YouTuber, GTA Online players on all platforms, including PlayStation 4, Xbox One, PlayStation 5, Xbox Series X|S, and PC, can try out this glitch for unlimited RP. How to exploit unlimited RP glitch to rank up fast in GTA Online Players must note that this method requires one more player to execute the glitch properly. After the latest weekly update, Rockstar Games offers double money and RP for all Deadline Adversary modes. According to the YouTuber, players must first bookmark all Deadline Adversary modes with a minimum player requirement of two individuals to exploit the GTA Online glitch. To do so, follow the steps mentioned below: Open the pause menu.Go to the Online tab.Select Jobs > Play Job > Rockstar Created > Adversary Mode.Bookmark Deadline IV, Deadline VI, and Deadline VII missions.Launch any of the missions and invite a friend to the lobby. Players must not allow more than one player to join the lobby, as the glitch only requires two.Before starting the mission, set the following settings: First to Win: 2 Rounds, Round Duration: 15 minutes, Team Lives: 10, Game Type: Last Alive.Once done, start the mission. Payouts in Adversary Modes are proportional to the amount of time spent on the mission. The longer you play it, the more money and RP you will earn later. Rockstar Games increases the reward after every two minutes of survival in an Adversary Mode mission. According to LaazrGaming, players must spend at least 15 minutes earning the most RP and quickly leveling up in GTA Online. Since you (the host) and your friend have control over the mission, you can manipulate it to earn benefits. The YouTuber purposefully lost the first round, for which they received 3050 RP, and won the next two, receiving 6000 RP each, totaling 15050 RP. Once the mission was completed, they received \$154,000 in cash and 15,250 RP. Although it was not a money glitch in GTA Online, the increased reward did provide a financial benefit.Players can repeat these missions to earn RP quickly, resulting in ranking up quickly. However, this GTA Online money glitch may only work until May 17, 2023, as Rockstar Games changes the mission rewards every Thursday. About the author Quick Links Edited by Dinesh Renthliel
